THE TOURNAMENT OF FISHING MASTERS

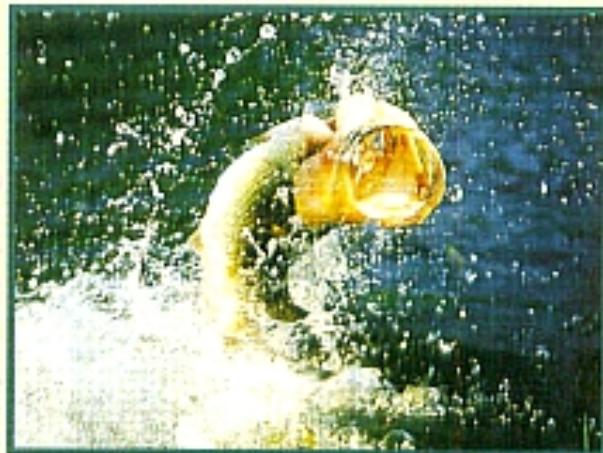

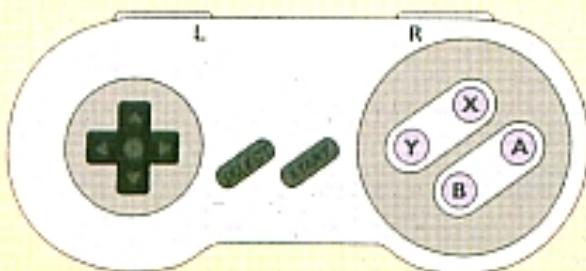

Welcome to the Fishing Master's Tournament, the most celebrated display of Bass fishing skills in the world. Your professional guide will be Mark Davis, the only angler ever to win both the BASS Angler of the Year Award and the BASS Masters Classic in the same year.

Message from Mark Davis

Mark Davis can give you good advice about how to improve your performance.

Advance to the Next Round

If you've ranked in the Top Ten, you'll receive a cash prize and you will be able to enter the next Tournament. If you didn't rank in the Top Ten, you won't receive any prize money, but you may be able to continue if you have enough pocket change.

If you are able to maintain your Top Ten ranking at the end of the five stages, you will be able to compete in the Grand Championship Tournament for the prestigious title of Grand Champion.

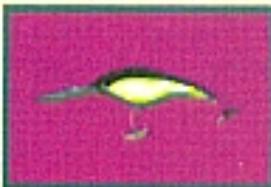

THE LURE

To become a Fishing Master, you'll need to know your equipment inside out. Be sure to choose your lures based on the current conditions.

Dancing Type

If used correctly, these lures will attract the bass with their vibrant motions.

Crank Bait

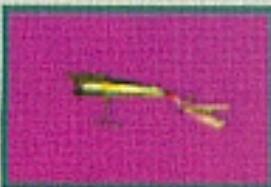

If this popular sink lure is used properly, it will dive down when you reel it in.

Stick Bait

This is a very popular and effective surface lure. Reel it in very slowly to achieve the best movement.

Popper

Good for depths of 0 to 10 feet, this noisy topwater lure rustles up the big fish from the bottom.

Minnow

This lure will dive down as you reel it in. Its motion looks like that of a weak or injured fish near the surface.

Noisy Type

Noisy Lures disturb the fish and bring them up from the depths.

Spinner Bait

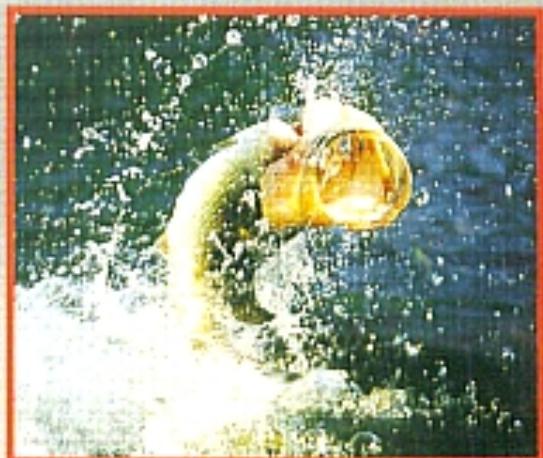

This lure is simply a jig and a metal blade attached together. An excellent lure for shallow depths.

Buzz Bait

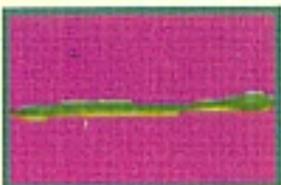

Similar to Spinnerbait, bring the fish up by making an irritating noise. It's best for shallow water.

Soft Type

Your hungry bass will easily be attracted to different kinds of food. Use them with your Rigs.

Straight Worm

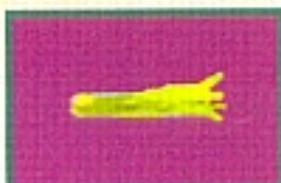

A good choice for nearly any condition. This little guy will move easily through heavily vegetated waters.

Grub

This lure has a tail action that the bass can't resist. It is made of soft plastic and has a hooked tail.

Tube Bait

The best choice for shallow water or areas heavy with weeds. A good choice for use with the Texas Rig.

Rubber Jig

Especially good for depths between 5 feet and 25 feet. This singlehook lure is good for any season.

Pork

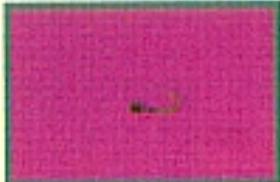

Is it real Pork? The fish will think so! Reel the line in slowly and minimize the jerky movements for best results.

Rigging

Can be used alone or with many of the Soft Type lures.

Jig Head

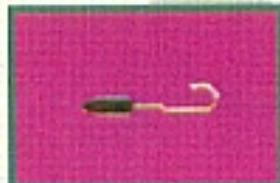

This is the most popular of all the rigs. Attach the sinker directly to the hook and use realistic movements.

Texas Rig

A basic and simple rig with many weight choices. Used mainly for shallow water or heavily foliated areas.

Florida Rig

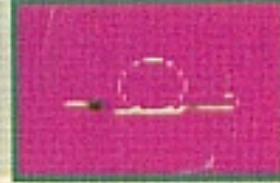

Use with the sinker and worm together. Good for bottom fishing and areas with many obstacles.

Carolina Rig

Used with a soft lure, this rig is good for deep bottom fishing in areas clear of obstacles.

Split Shot Rig

A small lead weight used for changing the length of the leader, creating a more natural lure.
